

**ActonArt** opened in June of 2003 with 30 students in a five-class summer program. Our schedule now lists approximately forty weekly classes. During the past twenty years we have added a number of classes tailored to various student populations. Among them are Portfolio level classes which are designed to provide high level instruction for students who wish to pursue fine and commercial art careers, and classes designed for the interests and schedules of adults.

**ActonArt** provides drawing and fine art instruction to students ranging in age from five years to adults. Our curriculum driven program is designed to teach to the strengths and abilities of general age ranges, however our class sizes are limited and small so we can focus on the needs of individual students as well. Our program and class structure has evolved over the years into a comprehensive presentation of core concepts and developmental skill building projects built around student friendly topics and drawing subjects. We offer classes that are specific to elementary, middle-school, and high-school children, intermediate and advanced level students, and even students who are developing portfolios for further study in art schools and colleges. We also have adult classes for people looking for personal enrichment and individual skills development.
